WHAT IS A HISTORY HARVEST?

A History Harvest gathers items of community significance that we would not otherwise see.

On March 5th, we are asking that you bring one or two items that are significant to your Rondo story. We will photograph your items, listen to your stories, and then upload the images to an online archive so more people can learn about Rondo.

We will not keep your items—you take them back to your home where they belong.

We are able to transport a small number of people to the event. If you need transportation , please send us an email by Thursday, March 3, 2016.
